

## Varis for Business Central

**Add consumer-like procurement technology with a marketplace of trusted suppliers to your Microsoft Dynamics 365 Business Central solution to save time and drive hard cost savings**

You don't need to be a huge organization to secure enterprise-level volume pricing. And it doesn't have to take forever to figure out where to buy, what to buy, and whether it complies with policies. That's because Varis connects you to pre-negotiated contracts with trusted suppliers right from Business Central.

## How Varis saves you time and money

No more searching multiple sites, thumbing through catalogs, and driving to physical stores to purchase everything from office supplies to breakroom supplies, to maintenance and repair parts, and much more. With just one search and one shopping cart, you can find what you need and take advantage of competitive discounts. So you save time while you're saving money.

Varis integrates with Business Central to allow you to take advantage of existing workflows and seamlessly manage the entire process digitally without leaving Business Central. With proven technology and led by experienced B2B sourcing thought leaders, Varis is transforming procurement by simplifying how you connect, contract, and transact with suppliers.

## Benefits

Generate hard dollar savings by leveraging Varis' pre-negotiated contracts with trusted, enterprise-class suppliers right from your Business Central interface.

Realize a quick return on investment by easily implementing intuitive procurement technology with no licensing fees in a matter of weeks with limited IT involvement.

Save time with Varis' engaging, all-in-one shopping experience that takes the guesswork (and legwork) out of getting the right products and prices.

Improve visibility and control by digitizing and automating manual paper-based processes, such as approvals and purchase orders, and linking them to your Business Central system, increasing procurement and finance efficiency.

# How does Varis work with Business Central?

## STEP 1

Launch the Varis™ one-stop shopping experience directly from Business Central.

## STEP 2

From a single search, shop for competitively priced products in a variety of categories and purchase them all in one shopping cart for easy checkout.

## STEP 4

Your order is fulfilled by trusted suppliers that meet Varis' stringent requirements for customer services.

## STEP 3

Optionally, you can leverage Business Central workflow to approve the purchase prior to submission.

## STEP 5

Supplier confirmation, shipping notification, invoices and other documentation are delivered to Business Central to support your back-office processes.
